Dear Mr . Curtis,

Your letter is like many I get these days. Most of the people who now write make it a point to tell me how old they were, if they'd been born, when JFK was assassinated.

Remember in reading the works of theory that because the crime itself was never officially investigated or intended to be there are no leads for private persons to follow.

Most of the theories mislead the people.

The list of your books you requested it enclosed.

Thanks and best wishes,

Harold Weisberg
